

BuyOneGram CRM - Non-Technical User Guide

Purpose

This guide explains how to use the CRM screen to view contacts and send WhatsApp messages or campaigns.

1) CRM Contacts List

What you see

- Table of contacts with stage, status, spend, and last activity.

- Filters for Search, Channel, Lifecycle, and Status.

What to do

- Use Search to find a customer by name, email, or phone.

- Click a contact row to open their details and messaging tools.

- Use Clear Filters to reset the list.

2) Contact Details (Right Side Card)

What you see

- Contact stage and status

- Consent flags (WhatsApp, Email, Push)

- Phone number and recent activity

What to do

- If WhatsApp Consent is not Allowed, update it before sending WhatsApp messages.

- Click Save Contact after changing stage, status, or consent.

3) WhatsApp Message Center (Single Contact)

Use this for one customer at a time.

Step A - Choose Send Mode

- Personal Text Reply

- Template Message

- Image Message

- Gift Message

Step B - Fill the fields (by mode)

Personal Text Reply

- Use this only if the customer already chatted with you.

- Message: type your message.

- Campaign Label (optional): any label like Support Follow-up.

Template Message (Recommended for first outreach)

- **Approved Template:** select from dropdown.

- **Language Code:** must match template (example: en or en_US).

- **Header Variables:** only if your template header has variables.

- **Body Variables:** values for {{1}}, {{2}}, etc.

- **Example body:** Hi {{1}}, your offer is {{2}}.

- **Body Variables example:** Ravi, 20% OFF.

Image Message

- **Click Upload Media.**

- **Select** an image file from your computer.

- **Caption (optional):** add a short text below the image.

GIF Message

- **Click Upload Media.**

- **Select** a GIF or MP4 file from your computer.

- **Caption (optional):** add a short text below the GIF or video.

Step C - Send

- **Click Send WhatsApp Message.**

- **Confirm** the popup before it sends.

4) WhatsApp Campaigns (Mass Messaging)

Use this to send templates to many contacts at once.

Step A - Fill the campaign form

- **Audience Segment:** choose who receives the message (All Consented, Customers, Inactive, VIP).

- **Inactive Window (days):** use 45 unless told otherwise.

- **Approved Template:** choose from dropdown.

- **Language Code:** must match template (example: en or en_US).

- **Header Variables:** only if the template header has variables.

- **Body Variables:** enter values for {{1}}, {{2}}, etc.

- **Campaign Label:** any label like April Winback.

Step B - Check audience preview

- **Click Refresh Preview.**

- **Confirm** the number of contacts in the preview.

Step C - Send

- **Click Send WhatsApp Campaign.**

Confirm the popup.

5) Common Field Examples

Template with 2 variables

Template body: Hi {{1}}, enjoy {{2}} today!

Body Variables line 1: customer name.

Body Variables line 2: offer text.

Example values: Amit, 15% OFF on Peanut Butter.

Template with no variables

Body Variables: leave empty.

Header Variables: leave empty.

6) Status Messages You Might See

Needs Config: WhatsApp credentials are invalid or expired.

Template Sync Manual: approved templates could not be pulled.

If you see these errors, contact the tech team.

7) Quick Checklist

Contact is selected.

WhatsApp consent is Allowed.

Template name and language match.

Variables match the template count.

Media: file uploaded from your PC.

8) Need Help?

Confirm WhatsApp API health status in the CRM panel.

Confirm the template is approved by Meta.

Contact the admin or tech team for assistance.
